

# TECHNICAL DATA SHEET

## Model and Manufacturer Information

|                     |                                                           |
|---------------------|-----------------------------------------------------------|
| Product Description | : 3x Heavy Duty Rubber Socket<br>: Outlet (Wall Mounting) |
| Model Code          | : 3KMP-F-O                                                |
| Stock Code          | : 950-304-0003                                            |

## Technical Specifications

|                       |                            |
|-----------------------|----------------------------|
| IP Class              | : IP44                     |
| Current Capacity      | : 16A                      |
| Gerilim Kapasitesi    | : 230V~                    |
| Voltage Capacity      | : F TYPE                   |
| Cable Length          | : -                        |
| Cable Cross Section   | : Max. 2.5 mm <sup>2</sup> |
| Cable Type            | : H05VV-F                  |
| Pole                  | : 2P+E                     |
| Operating Temperature | : -20°C & +60°C            |
| Material              | : TPE                      |

## Packaging Information

|                     |                        |
|---------------------|------------------------|
| Box Pieces          | : 14                   |
| Package Pieces      | : 84                   |
| Weight (package) kg | : 3,0                  |
| Weight (box) kg     | : 18,6                 |
| Size (package) cm   | : 36*24,5*14,5 (L*W*H) |
| Size (box) cm       | : 51*36*46 (L*W*H)     |

## Design and Features

|                   |                                                                  |
|-------------------|------------------------------------------------------------------|
| Roller Mechanism  | : -                                                              |
| Security Features | : The contact slots are made of flame retardant plastic material |
| Areas of Use      | : Suitable for indoor and outdoor use                            |

## Standards and Certificates

Manufactured by performing all routine tests in accordance with  
TS IEC 60884-1/Cor1:2024; standard

Emfanorm Electronic Plastic Industry Co., Ltd.
