

PRODUCT DATASHEET

Panasonic

Product Name :	Energy Saver Control Unit 16+H/C - Energy Saver Control Unit 16+2(H/C)	
Product Code :	90551189	90551170
Technical Specifications:		
Operating Voltage	5 V DC	
Operating Temperature	0...45 °C	
Maximum Switching Current	16A (Resistive)	
Opening Time	Max. 1 sec.	
Closing Delay	15 sec. $\pm$ 1 sec.	
Connection Wire	Minimum 0.50 mm ² diameter	

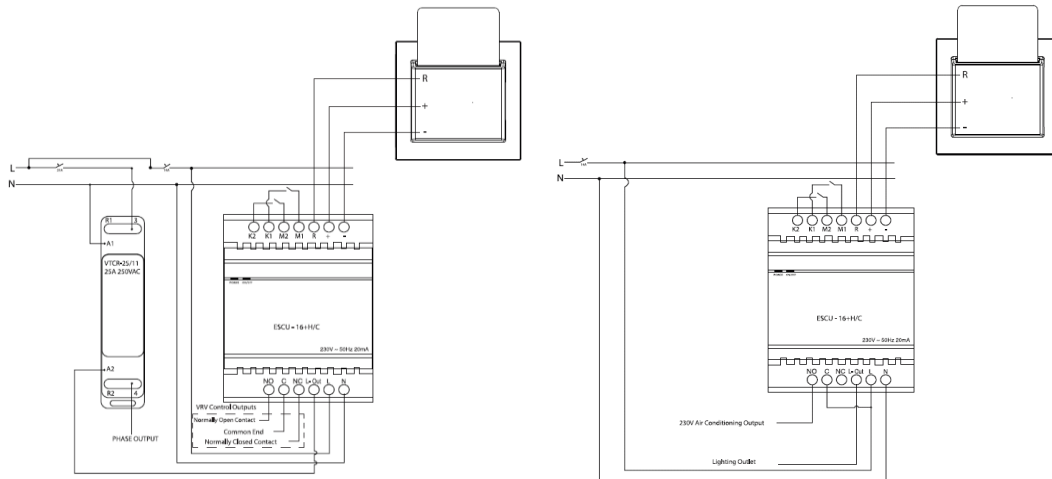

Wiring Diagram:

NOTE:

- If the load statement to be checked is lower than 16A, the above wiring diagram must be applied.

NOTE:

- If the load statement to be checked is higher than 16A, the above wiring diagram must be applied.
- The same connection can be made for the 2H / C version of the relay.

NOTE:

- If the "VRV" feature of the air conditioner to be controlled doesn't exist, the above wiring diagram must be applied.
- The same connection can be made for the 2H / C version of the relay.
