

LED BOLLARD LIGHT

SA-3048-165 / 75cm

SANLI 3048-165 LED bollard; optical module is optimized solely for garden lighting. Light is directly sent out of the luminaire.

SANLI 3048-165 LED bollard lighting is an IP54 graded module itself.

MECHANICAL PROPERTIES

- Corrosion resistant Seamless Aluminium column, Zinc phosphate O4PZn coating, Electrostatic Paint RAL7016
- Dimension column 80x150mm H:750mm, arm 300mm
- thickness 2mm
- Easy installation, easier maintenance
- Ingress protection: IP54, IK08
- Electrical Insulation: Class I-II
- The system complies with European standards EN60598.
- Corrosion resistant and superior quality finishes for all weather conditions.

OPTICAL PROPERTIES

- Color Temperature LED: 3000K @OsramLED (Opt. 4000K, 6500K)
- Total Luminous Flux: 1440lm
- Lifetime: L70B50 > 20.000 h
- Smooth and full cut-off light distribution.

ELECTRICAL PROPERTIES

- Power Consumption: 12,2W @180mA.
- LED Driver: Texrun, IP67
- Input Voltage: 220-240V 50Hz.
